

WHO'S ALEC?*

.*American Legislative Exchange Council

ALEC is the creature put together in the joint laboratories of the Koch Brothers, Exxon Mobil and their ilk to kill labor unions and other endangered species, sell off public lands and to write all the laws that we pay elected officials to enact. ALEC was married to Coca, Pepsi and Kraft but they all left him. Surely ALEC is more worthy of the death penalty than most of the people on death row but he will be harder to kill.
