

Germany 1923- As the value of the mark dropped precipitously people were seen shopping with wheelbarrows to carry their currency.

Germany, Italy and the rest of Europe 2007- Americans are facing similar problems as the dollar continues its slide.

**CCN** will be shutting down throughout the month of December for a holiday return to the fatherland (homeland security permitting) to visit old and new members of the family, as well as surviving grade school classmates, to bask in the warmth of overheated shopping centers and friends' houses and to enjoy the holiday bounty that only our booming economy could still place at our disposal.

We wish you all a joyous and luxurious holiday and the ability to insulate yourselves from the world of evildoers outside. May God continue to be on our side in **2008** as we face the delicate choice between:

Imperialism with a happy face  
and  
a sprint toward Armageddon.

Peace!
